## Job Description

---

Location: Saudi Arabia Company: FWO – <https://fwo.sa/> Apply Now: <https://lnkd.in/diwMNB4h>

## Job Description:

We are hiring experienced Steel Fixers who are skilled in cutting, bending, and fitting steel bars and mesh for reinforced concrete structures. The ideal candidate must be able to read technical drawings and work accurately to prepare reinforcement for slabs, beams, columns, and foundations.

## Responsibilities:

- Read and interpret structural drawings and bar bending schedules (BBS)
- Cut, bend, and shape steel bars as per specifications
- Position, tie, and fix rebar for slabs, columns, beams, and foundations
- Secure reinforcement using binding wire, spacers, and supports
- Ensure proper alignment, measurements, and strong reinforcement structure
- Inspect work for accuracy and compliance with project standards
- Work closely with site supervisors and follow safety guidelines

## Requirements:

- Minimum 3+ years of experience as a Steel Fixer in construction projects
- Ability to read and understand drawings and BBS
- Familiarity with rebar cutting, bending, and tying techniques
- Strong understanding of reinforced concrete works
- Physically fit and capable of working in site conditions
- Transferable Iqama preferred
